# ISRAEL: THE CARTOONISTS' DIAGNOSIS 2006

Dear Educator,

Israel's complex social and political affairs provide a natural breeding ground for satire. Every part of Israeli life has political overtones, making the medium of the published cartoon a perfect vehicle with which to respond to the continual contentious affairs. A true demonstration of democracy, the Israeli political cartoon allows artists to deal with highly sensitive issues with a mix of humor and seriousness. Appreciated for their provocative nature, these cartoons are often as effective a means of expressing opinions as any political speech, newspaper article or newscast.

The collection was curated in collaboration with the Association of Cartoonists in Israel.

The exhibit includes 60 cartoons on 5 different topics, ready to hang and enjoy!

The educational component: In addition to the exhibit we created a booklet with educational guidelines, the images and a CD containing a PowerPoint presentation. The exhibit, booklet and CD can be used together or separately depending on your needs as an educator.

The exhibit will be on display in schools, community centers, congregations and campuses in the San Francisco Bay Area.

For info, to receive the educational material, or to schedule the exhibit in your venue, please contact: Svetlana Cherches 415-751-6983 #133, [scherches@bjesf.org](mailto:scherches@bjesf.org)

Art Speaks Louder Than Words

This, and other available exhibits, can help educators to teach Israel through the Arts. Check our web site [www.israelcentersf.org/education](http://www.israelcentersf.org/education) to find out more.
